

Join the Transportation Association of Canada to be part of

Canada's network and centre of technical expertise on roads, highways and urban transportation!

Who is TAC?

TAC member organizations and their staff share ideas and information on technical transportation issues. TAC doesn't set standards but develops technical guidance for transportation infrastructure, systems and services, falling under **six focus areas**:

SAFETY, DESIGN & OPERATIONS

INFRASTRUCTURE & ASSET MANAGEMENT

ENVIRONMENT & CLIMATE CHANGE

TECHNOLOGY

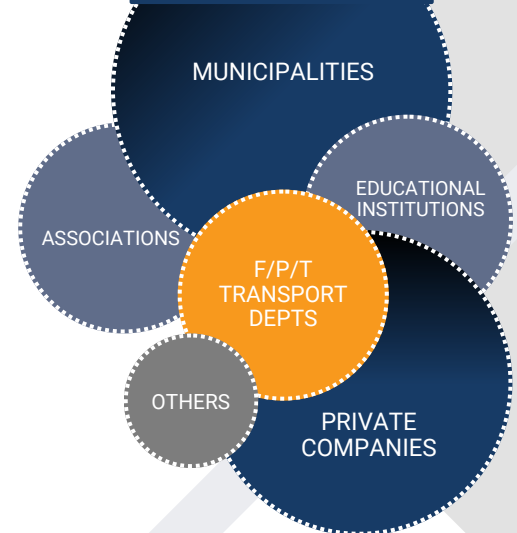

MOBILITY

WORKFORCE DEVELOPMENT

TAC's **500+** member organizations include:

As a member organization of TAC, **your employees**:

Develop professionally by staying informed about **current and emerging issues** affecting Canada's transportation landscape through events, information, resources, and TAC's network

Receive preferred and discounted **access** to TAC's conference and events, publications, training courses, TAC's Library, and more

Can participate as part of TAC's **technical councils and committees** to learn from others, lead, share knowledge and build their network of peers

TAC member organizations can:

- ✓ Post positions for free on our National Job Board
- ✓ Receive notifications of all RFPs for TAC's Technical Projects (private businesses and academic organizations only)
