Welcome!

Do you want to make a difference in your community, your country and the world?

A career in transportation gives you that opportunity – it's a diverse and rapidly evolving field with tremendous impacts on our everyday lives, economy and environment.

This guide offers information on more than 30 employers from across Canada that are participating in our Online Open House, and on the employment opportunities they can offer you. It also includes more on our event partners: CARSP, IEEE Canada, ITE Canada and ITS Canada. And don't miss the information on TAC Foundation scholarships for post-secondary students.

TAC is Canada's centre of expertise for roads, highways and urban transportation. We host Canada's largest annual transportation-themed conference, and develop technical resources related to safety, mobility, technology, infrastructure and asset management, environment and climate change, and workforce development.

See our website (www.tac-atc.ca) for information on what TAC offers to students like you:

- Free membership
- Hundreds of publications – many free, some discounted
- Free webinars, discounts on some online courses, and access to our transportation library
- Free or discounted access to the TAC Conference and Exhibition
- Access to technical committee meetings where you can learn about current issues and build your professional network

We hope our Online Open House inspires you to look deeper into what a career in transportation can offer you!

Sarah Wells
Executive Director

Bienvenue !

Voulez-vous améliorer les choses dans votre communauté, votre pays et le monde?

Une carrière dans le domaine des transports vous en donne la chance – il s'agit d'un domaine diversifié et en évolution rapide qui a des impacts considérables sur notre vie quotidienne, notre économie et notre environnement.

Ce guide vous fournit de l'information sur plus de 30 employeurs de différentes régions du pays qui participent à notre journée portes ouvertes en ligne et sur les possibilités d'emploi offertes par ces employeurs. Vous y trouverez aussi plus d'informations sur nos partenaires de l'événement : l'ACPSE, IEEE Canada, ITE Canada et STI Canada. Consultez également l'information sur les bourses de la Fondation de l'ATC pour les étudiants de niveau postsecondaire.

L'ATC est le centre d'expertise du Canada pour les routes, les autoroutes et le transport urbain. Nous organisons la plus grande conférence annuelle sur le thème des transports au Canada et élaborons des ressources techniques liées à la sécurité, à la mobilité, à la technologie, aux infrastructures et à la gestion des actifs, à l'environnement et aux changements climatiques, ainsi qu'au développement de la main-d'œuvre.

Consultez notre site Web (www.tac-atc.ca/fr/) pour plus d'informations sur ce que l'ATC offre aux étudiants comme vous :

- Adhésion gratuite.
- Des centaines de publications, dont de nombreuses publications gratuites et d'autres à prix réduit.
- Webinaires gratuits, rabais sur certains cours en ligne et accès à notre bibliothèque des transports.
- Accès gratuit ou à prix réduit au congrès-exposition de l'ATC.
- Accès aux réunions des comités techniques où vous pourrez vous informer sur les enjeux actuels et construire votre réseau professionnel.

Nous espérons que notre journée portes ouvertes en ligne vous encouragera à vous renseigner sur ce qu'une carrière en transport peut vous offrir!

Sarah Wells

Short profile

Profil succinct

At AECOM, we're delivering a better world. We believe infrastructure creates opportunity for everyone. Whether it's improving your commute, keeping the lights on, providing access to clean water or transforming skylines, our work helps people and communities thrive.

Our clients trust us to bring together the best people, ideas, technical expertise and digital solutions to our work in transportation, buildings, water, the environment and new energy. We're one global team – over 50,000 strong – driven by a common purpose to deliver a better world. Join us.

Chez AECOM, nous offrons un monde meilleur. Que ce soit en améliorant vos déplacements, en maintenant l'éclairage, en assurant l'accès à l'eau potable, ou en transformant les horizons urbains, notre travail contribue à l'épanouissement des individus et des communautés. En tant que cabinet de conseil en infrastructures de confiance dans le monde, nous collaborons avec nos clients pour résoudre les défis les plus complexes de la planète et construire un héritage pour les générations futures.

Il n'y a jamais eu de meilleur moment pour rejoindre AECOM. Avec l'investissement mondial croissant dans les infrastructures, nos services sont très demandés. Nous vous invitons à apporter vos idées audacieuses et vos grands rêves, et à faire partie d'une équipe mondiale de près de 50 000 planificateurs, concepteurs, ingénieurs, scientifiques, innovateurs numériques, gestionnaires de programmes et de construction, ainsi que d'autres professionnels travaillant sur des projets ayant un impact positif et concret dans le monde entier. Nous formons une seule équipe mondiale, unie par notre objectif commun de créer un monde meilleur. Rejoignez-nous.

Arcadis

Type of organization *Type d'organisation*

Private sector
Secteur privé

Workplace locations *Lieux de travail*

BC, ON

Short profile *Profil succinct*

Arcadis is the world's leading company delivering sustainable design, engineering, and consultancy solutions for natural and built assets. We partner with our clients across the globe to design thriving and connected cities and communities that enable opportunity for all and keep the world moving. Climate change, urbanization and digitization trends are requiring today's mobility projects and systems to address an evolving set of demands from the world's growing population. We design connected, sustainable solutions that integrate existing infrastructure with new technologies, and optimize the mobility of people and goods.

Employment opportunities for students *Possibilités d'emploi pour les étudiants*

We hire students into various teams at Arcadis such as Transportation Planning, Active Transportation, Transportation Engineering, Transportation Systems, Transit Technology, Intelligent Transportation Systems, and for transportation related products such as CurbiQ and HotSpot.

BA Consulting Group Ltd.

Type of organization

Type d'organisation

Private sector
Secteur privé

Workplace locations

Lieux de travail

ON

Short profile

Profil succinct

BA Consulting Group Ltd. is a Canadian firm specializing in urban transportation planning and design. We provide traffic, transit, pedestrian, bicycle, parking and loading solutions to facilitate the design, approval and implementation of buildings, sites, facilities, and events in which there will be large movements of people. We work with owners, architects and other multi-disciplinary team members to create development plans supported by properly integrated transportation systems.

Employment opportunities for students

Possibilités d'emploi pour les étudiants

We offer opportunities for students to join our multi-disciplinary project teams. Students can undertake tasks and responsibilities as part of the project team, and work with a broad mix of experience levels and skillsets. They're fully immersed in the consulting sector and will gain first-hand experience with the fundamentals of transportation planning and engineering. Students can expect to work with multiple project managers and apply their skillsets to support technical analysis (e.g. data analysis, review of site plans, policy research, transportation forecasting, etc.).

City of Montreal / Ville de Montréal

Type of organization Type d'organisation

Government
Gouvernement

Workplace locations Lieux de travail

QC

Short profile Profil succinct

The City of Montreal is one of the largest employers in Canada (more than 28,000 employees). Our organizational culture is based on four values: respect, diversity, equity and inclusion. Our 2050 Urban Planning and Mobility Plan aims to make Montréal a metropolis for people based on three main principles: Ecological transition and biodiversity; Health and safety; and Social and Territorial Equity. A job at the City of Montreal will allow you to: Exert an impact on people's quality of life; Take on major challenges; Benefit from competitive working conditions; Achieve work-life balance; and Achieve your career plan and develop your expertise.

La Ville de Montréal est l'un des plus importants employeurs au Canada (plus de 28 000 employés). Notre culture organisationnelle repose sur quatre valeurs : le respect, la diversité, l'équité et l'inclusion. Notre Plan d'urbanisme et de mobilité 2050 vise à faire de Montréal une métropole à échelle humaine en s'appuyant sur trois grands principes : transition écologique et biodiversité; santé urbaine et sécurité; et équité sociale et territoriale. Travailler à la Ville vous permettra de : avoir un impact sur la qualité de vie des personnes; relever des défis d'envergure,

bénéficier de conditions de travail concurrentielles; concilier travail et vie personnelle; et réussir votre plan de carrière et développer votre expertise.

Employment opportunities for students Possibilités d'emploi pour les étudiants

The City of Montreal is investing massively to transform the development of its territory according to the needs of its population including mobility, housing, economic development, ecological transition, environment and heritage. Many job opportunities are thus created. Indeed, each year, the City hires more than 1,200 people with Secondary level 3 and above. For students, multiple opportunities are offered:

- Student jobs eligible for the Canada Summer Jobs wage contribution
- Internships: offered to full-time university students (Bachelor / remuneration possible)
- Seasonal jobs: year-round, full-time or part-time.

A Workforce integration program offers levers to facilitate the hiring of young graduates.

La Ville investit massivement pour transformer l'aménagement de son territoire selon les besoins de sa population en matière de mobilité, d'habitation, de développement économique, de transition écologique, d'environnement et de patrimoine. De nombreuses opportunités d'emploi sont ainsi générées. En effet, chaque année, la Ville embauche plus de 1 200 personnes dès le secondaire 3. Pour les étudiants, des opportunités multiples sont offertes :

- *Emplois étudiants admissibles à la contribution salariale d'Emplois d'été Canada*
- *Stages : offerts aux étudiants de niveau universitaire (BAC) à temps plein (rémunération possible)*
- *Emplois saisonniers : tout au long de l'année, à temps plein ou à temps partiel*

Un programme d'intégration en emploi offre des leviers facilitant l'embauche de diplômés.

City of Surrey

Type of organization

Type d'organisation

Government
Gouvernement

Workplace locations

Lieux de travail

BC

Short profile

Profil succinct

The City of Surrey has a population of almost 700,000 and is set to surpass Vancouver as the largest city in BC with 800,000 people by 2029. Surrey is a culturally diverse and fast-growing, urbanizing city with the Lower Mainland's second downtown and six distinct communities. The City's Transportation Division includes Transportation Systems, Traffic and Road Safety Engineering, Transportation Planning, Transportation Infrastructure, Parking and New Mobility, and GIS teams. Together the Division plans and manages multi-modal urban transportation for over 2,000 km of roads.

Employment opportunities for students

Possibilités d'emploi pour les étudiants

The City's Transportation Division hires students in the Traffic and Road Safety Engineering section and the Parking and New Mobility section. Students gain valuable experience and contribute meaningful work to both teams, investigating resident concerns related to upgrading traffic control (e.g. crosswalks, stop signs, signals, and roundabouts), reviewing sightlines, designing speed humps plans, and managing on-street parking. Students are exposed to engineering drawings, design criteria and standards, transportation warrants and decision-making processes, and municipal government legislation and regulations, while working with professional engineers to serve the City of Surrey.

Government of Northwest Territories – Department of Infrastructure / Ministère de l'Infrastructure du gouvernement des Territoires du Nord-Ouest

Type of organization Type d'organisation

Government
Gouvernement

Workplace locations Lieux de travail

NT

Short profile Profil succinct

The Department of Infrastructure delivers a broad range of programs and services across the territory, managing essential government projects and initiatives, including: operating and maintaining highways, bridges, ferries, airports and public buildings, project management, facilities planning, design and technical support services, environmental assessment and remediation, strategic planning, marine transportation services, property management, information technology and mechanical/electrical regulatory services and fleet management.

The Department is also responsible for programming aimed at increasing the use of domestic energy resources and reducing energy costs, delivering renewable energy solutions, providing energy supply services to non-market communities.

Le ministère de l'Infrastructure offre de nombreux programmes et services aux TNO, et gère des initiatives et des projets gouvernementaux essentiels : exploitation et entretien des routes, des ponts, des traversiers, des aéroports et des bâtiments publics; gestion de projets et

planification des installations; prestation de services de conception et de soutien technique; évaluation environnementale et assainissement; planification stratégique; service de transport maritime; gestion immobilière; technologie de l'information; services réglementaires liés aux appareils mécaniques et électriques; gestion du parc de véhicules.

Il est également responsable d'accroître l'utilisation des ressources énergétiques nationales et de réduire les coûts de l'énergie, en offrant des solutions d'énergie renouvelable et des services d'approvisionnement en énergie aux collectivités hors marché.

Employment opportunities for students Possibilités d'emploi pour les étudiants

The Government of Northwest Territories (GNWT) recognizes the value of summer student employment to support eligible students and to provide experience to future graduates with the intention of retaining skilled graduates. There are several summer employment opportunities throughout the NWT with a typical employment period from April 15 to August 30. Students assist in project planning, design, and construction. It includes a wide range of training opportunities, career planning services and mentorship from supervisors and senior staff

The Departments also recruit post-secondary graduates into entry level positions related to their field of study.

Le gouvernement des Territoires du Nord-Ouest (GTNO) reconnaît le rôle important des emplois d'été pour les étudiants. Ces emplois leur permettront d'acquérir de l'expérience et l'employeur pourra ainsi embaucher des diplômés qualifiés. Il y a plusieurs possibilités de travailler aux TNO durant l'été, habituellement du 15 avril au 30 août. Les étudiants contribuent à la planification de projets ainsi qu'à leur conception et leur construction. Ces emplois comprennent de nombreuses possibilités de formation, des services de planification de carrière et du mentorat par des superviseurs et des cadres supérieurs.

Le Ministère embauche également des diplômés de niveau postsecondaire dans des postes de débutant en lien avec leur domaine d'études.

Manitoba Transportation and Infrastructure

Type of organization *Type d'organisation*

Government
Gouvernement

Workplace locations *Lieux de travail*

MB

Short profile *Profil succinct*

Manitoba Transportation and Infrastructure (MTI) is responsible for establishing and managing public infrastructure, including provincial highways and roads, highway bridges and structures, water and flood control works, and northern airports and marine services. It develops, communicates and administers motor carrier regulatory and safety services. The department also oversees and coordinates emergency preparedness, emergency response and disaster recovery to prevent the loss of life and minimize damages to property and the environment.

Employment opportunities for students *Possibilités d'emploi pour les étudiants*

MTI partners with multiple universities and colleges hiring about 100 co-op students annually, throughout the province of Manitoba. Our co-op program helps you train for the future by combining classroom studies with real life experience. Help plan, design and construct Manitoba's highways and public infrastructure – and get on the road to a rewarding career with MTI. Manitoba Transportation and Infrastructure also offers a structured comprehensive EIT Development Program where we provide you with training and experience to support your goals of becoming a Professional Engineer.

New Brunswick Department of Transportation and Infrastructure / *Ministère des Transports et de l'Infrastructure du Nouveau-Brunswick*

Type of organization *Type d'organisation*

Government
Gouvernement

Workplace locations *Lieux de travail*

NB

Short profile *Profil succinct*

The Department of Transportation and Infrastructure contributes to New Brunswick's economy and quality of life by providing transportation infrastructure that allows for the safe and efficient movement of people and goods, as well as building infrastructure to accommodate government services. The department plans, designs, constructs, operates, and maintains an extensive network of approximately 18,000 kms of highway, 5,500 bridges and large culverts and 12 ferry crossings. The department is also responsible for the management of the province's fleet vehicles, providing oversight of the province's mobile radio communication system and short line railway operations.

Le ministère des Transports et de l'Infrastructure contribue à l'économie et à la qualité de vie au Nouveau-Brunswick en fournissant une infrastructure de transport de manière à permettre la circulation sûre et efficace des biens et des personnes ainsi qu'une infrastructure de bâtiments pour accueillir les services gouvernementaux. Le Ministère planifie, conçoit, construit, exploite et entretient un vaste réseau d'environ 18 000 km de routes, 5 500 ponts et grands ponceaux et 12 services de traversiers. Il est également chargé de la gestion du parc de

véhicules du gouvernement provincial, assurant la supervision du système provincial de radiocommunications mobiles et des services de chemins de fer de courtes lignes.

Employment opportunities for students **Possibilités d'emploi pour les étudiants**

The department provides opportunities for students in engineering, technicians/technologist, business, finance, human resources, environmental management, and communication including many of the following areas:

- Bridge structural design, evaluation, and operations
- Highway design
- Highway operations and management
- Geotechnical/Geological engineering
- Construction management
- Materials testing
- Geomatics and GIS applications
- Traffic and highway safety engineering
- Hydraulic design
- Asset management
- Project management
- Environmental management
- Human resources
- Finance & supply chain
- Policy and communications

Le département offre des opportunités aux étudiants en génie, techniciens / technologues, affaires, finances, ressources humaines, gestion de l'environnement et communication, y compris un bon nombre des domaines suivants :

- *Conception, évaluation et exploitation de la structure du pont*
- *Conception des routes*
- *Exploitation et gestion des routes*
- *Génie géotechnique/géologique*
- *Gestion de la construction*
- *Essais des matériaux*
- *Applications géomatiques et SIG*
- *Ingénierie de la circulation et de la sécurité routière*
- *Conception hydraulique*
- *Gestion des actifs*
- *Gestion de projet*
- *Gestion environnementale*
- *Ressources humaines*
- *Finances et chaîne d'approvisionnement*
- *Politiques et communications*

Ontario Ministry of Transportation / Ministère des Transports de l'Ontario

Type of organization Type d'organisation

Government
Gouvernement

Workplace locations Lieux de travail

ON

Short profile Profil succinct

The Ontario Ministry of Transportation (MTO) strives to be a world leader in moving people and goods safely and efficiently to support a globally competitive economy and a high quality of life. The ministry supports Ontario's economic competitiveness by planning and investing in critical transportation infrastructure, vital gateways, ferries, and border crossings. Its goals include promoting road safety and transit ridership, and integrating sustainability into the Ontario government's decision-making, programs, policies, and operations. MTO is made up of different divisions where staff focus on various aspects of planning and delivering transportation in the province.

Le ministère des Transports de l'Ontario s'efforce d'être un chef de file mondial en matière de

mouvement sécuritaire et efficace des personnes et des biens, afin de soutenir une économie concurrentielle à l'échelle mondiale et une excellente qualité de vie. Le ministère soutient la compétitivité économique de l'Ontario en planifiant les infrastructures de transport essentielles, les points d'entrée vitaux, les traversiers et les postes frontaliers, et en effectuant des investissements en la matière. Parmi ses objectifs, figurent la promotion de la sécurité routière et des transports en commun ainsi que l'intégration de la durabilité dans les décisions, programmes, politiques et opérations du gouvernement de l'Ontario. Le ministère des Transports de l'Ontario (MTO) se compose de différentes divisions au sein desquelles le personnel se concentre sur de nombreux aspects de la planification et de la mise en œuvre des transports dans la province.

Employment opportunities for students Possibilités d'emploi pour les étudiants

Jump-start your career with MTO and take pride in strengthening Ontario, its places, and its people! We offer formal/ informal learning and development opportunities, including a rotational assignment approach that works with your interests, and a mentoring program designed to assist you with your career and professional growth. For recent graduates, MTO's engineering, transportation technician and surveying development programs provide exciting opportunities for goal-oriented, proactive problem-solvers, seeking rewarding careers. We also hire enforcement officers, urban planners, and for marine services. We foster a diverse, anti-racist, inclusive work environment; work-life balance is supported by flexible work arrangements, comprehensive benefits, and pension.

Amorcez votre carrière au sein du MTO et contribuez avec fierté au renforcement de l'Ontario, de ses lieux de vie et de sa population! Nous offrons des possibilités d'apprentissage et de perfectionnement officielles et informelles, et proposons notamment un système de rotation des affectations en fonction de vos champs d'intérêt, ainsi qu'un programme de mentorat conçu pour vous aider dans votre carrière et votre développement professionnel. Pour les nouveaux diplômés à la recherche de carrières gratifiantes, les programmes de formation du MTO en ingénierie, en technique des transports et en

arpentage offrent des perspectives passionnantes, si vous aimez résoudre des problèmes de manière proactive et atteindre des objectifs. Nous recrutons également des agents chargés de l'application de la loi, des urbanistes et des spécialistes des services maritimes. Nous proposons un environnement de travail diversifié, antiraciste et inclusif; l'équilibre entre la vie professionnelle et la vie privée est favorisé par des modalités de travail souples qui s'accompagnent d'avantages sociaux complets et d'un régime de retraite.

Short profile Profil succinct

Paradigm Transportation Solutions Limited is an employee owned, client-centric, solutions-focused consulting practice offering transportation planning and traffic engineering services to public and private sector clients in Ontario. For over 25 years we have helped solve real-world transportation problems using our skills and expertise in community transportation planning, active and sustainable transportation, traffic operations and safety analysis, transportation impact assessment, parking planning, transportation data management, and expert testimony.

Employment opportunities for students Possibilités d'emploi pour les étudiants

Paradigm values the fresh perspectives students and new graduates bring to our team. Students and new grads primarily support our engineers and planners to undertake traffic and parking studies, including research and investigations, data collection, transportation-related modeling and AutoCAD work, and report preparation. Occasionally, students and new grads will support large-scale projects applying skills in areas such as safety, transit, active transportation, and travel demand management. We are committed to fostering professional development, providing training and growth opportunities for career advancement. We are always looking for self-motivated individuals who want to make a difference in our world.

Ministry of Highways, Government of Saskatchewan

Type of organization **Type d'organisation**

Government
Gouvernement

Workplace locations **Lieux de travail**

SK

Short profile **Profil succinct**

The ministry's core lines of business focus on providing transportation infrastructure and services for a growing Saskatchewan by planning, designing and building, maintaining, operating, regulating and developing policies for the transportation system. In everything the ministry

does, safety is the top priority. The ministry manages and provides for the future development of an integrated sustainable provincial transportation system, which supports economic growth and prosperity for Saskatchewan. Ministry infrastructure investments will be guided by strategic transportation policy and incorporate operating and maintenance practices which promote the safe and efficient movement of people and goods.

Employment opportunities for students **Possibilités d'emploi pour les étudiants**

The ministry has opportunities for engineering interns, co-op students, engineers in training, professional engineers and technicians. Students have the opportunity to develop, manage and consult on transportation projects around the province including new infrastructure and rehabilitation of existing infrastructure. Engineering areas of focus include hydraulic design, environment, operation and maintenance, fleet manufacturing, design delivery, construction delivery, project management, traffic engineering, quality assurance, geotechnical engineering, preservation and surfacing and material standards. Staff work on various construction projects. Fieldwork includes inspections, monitoring, surveying, material testing and safety inspections.

Stantec is a global leader in sustainable engineering, architecture, and environmental consulting. The diverse perspectives of our partners and interested parties drive us to think beyond what's previously been done on critical issues like climate change, digital transformation, and future-proofing our cities and infrastructure. We are designers, engineers, scientists, project managers, and strategic advisors. We innovate at the intersection of community, creativity, and client relationships to advance communities everywhere, so that together we can redefine what's possible.

Chef de file mondial dans le domaine du développement durable, Stantec offre des services-conseils en ingénierie, en architecture et en environnement. Les différents points de vue de nos partenaires et des parties prenantes – clients, pairs de l'industrie et personnes touchées par nos réalisations – nous motivent à faire preuve de créativité et d'innovation, surtout lorsqu'il s'agit d'enjeux importants comme les changements climatiques, la transformation numérique et la résilience des villes et des infrastructures. Nous sommes des concepteurs, des ingénieurs, des scientifiques, des chargés de projet et des conseillers stratégiques. Nous innovons ensemble, là où se rejoignent intérêt collectif, créativité et besoins des clients, afin de réaliser des projets qui repoussent les limites.

Employment opportunities for students Possibilités d'emploi pour les étudiants

Do you like variety? Hands-on experience? Learning from the best? An opportunity to land your first job? If you answered yes to any of these, we can provide all that and more. Our internship program gives students the opportunity to work with clients and communities we serve. Stantec's teams work together to solve the world's toughest challenges in water, the environment, buildings, communities, energy, mining, transportation, and construction. Join us and together we can redefine what's possible.

Vous aimez la variété ? Vous voulez acquérir de l'expérience pratique ? Vous voulez apprendre auprès des meilleurs ? Et vous cherchez à décrocher votre premier emploi ? Si vous avez répondu oui à l'une de ces questions, nous pouvons vous offrir tout cela et bien plus encore. Notre programme de stages donne aux étudiants l'occasion de travailler avec les clients et les communautés que nous servons. Les équipes de Stantec travaillent ensemble pour résoudre les défis les plus difficiles du monde dans les domaines de l'eau, de l'environnement, des bâtiments, des communautés, de l'énergie, de l'exploitation minière, du transport et de la construction. Rejoignez-nous et ensemble, nous pourrions redéfinir ce qui est possible.

Developing tomorrow's transportation leaders

Investing in the future of transportation

The TAC Foundation is pleased to offer students the opportunity to apply for scholarships valuing between \$2500 and \$6000. The scholarships are intended to help support their post-secondary education in transportation-related studies. The scholarships are competitive and based on the applicant's specific transportation goals, academic record and transportation-related activities or job skills. The Foundation also offers an Internship program, Student Activities Fund and STEM Workshops on transportation technologies for high school students.

Together, we are providing financial support to tomorrow's transportation professionals across Canada.

VISION

A robust and diverse Canadian transportation workforce

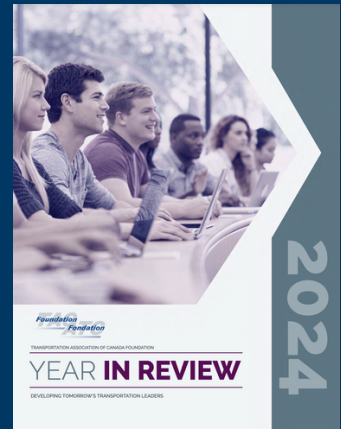

MISSION

Developing tomorrow's transportation leaders

The TACF provides the opportunity for the transportation industry to access and connect with Canada's top students and young transportation professionals."

Gerry Chaput, P. Eng.,
TAC Foundation President

645+

Scholarships

\$2.7

Million Awarded

This financial support has enabled hundreds of Canadian students to complete their transportation studies and become our current professional colleagues.
