

**2011 TAC Conference & Exhibition
Edmonton, September 12, 2011**

Building the Future Transportation System
for the Greater Toronto and Hamilton Area

Bruce McCuaig
President and Chief Executive Officer

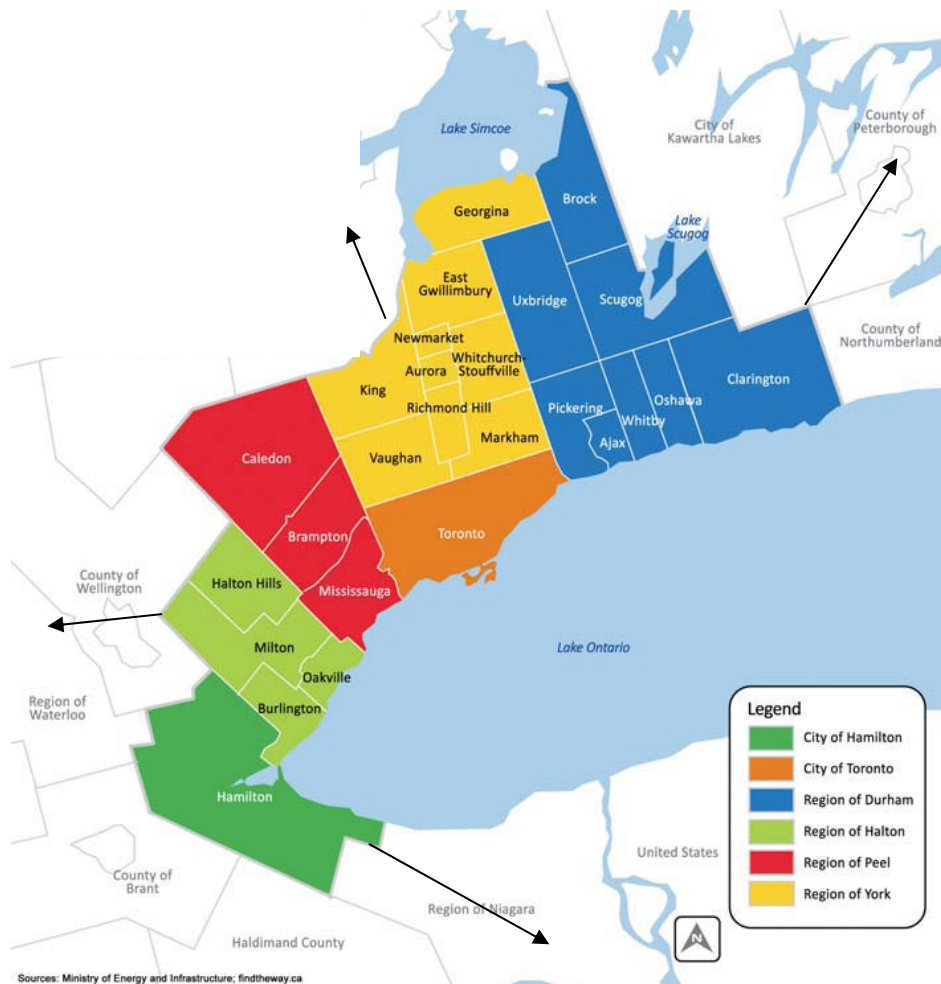

Who **is Metrolinx?**

Created in **2006** for the purpose
of providing residents and businesses
in the **GTHA** a transportation
system that is **modern, efficient**
and **integrated**

We plan. We deliver. We operate.

The Greater Toronto and Hamilton Area

6 million people (8.62 million by 2031)

30 municipalities

4 levels of government

10 transit agencies

8,242 km²

GO Transit

Launched in 1967

Merged with Metrolinx in 2009

Presto

“Smart Card” technology

Now available across GO rail and bus system, on municipal buses across the region, and at 12 selected TTC subway stations

Will be rolled out to Ottawa in Summer 2011, and rest of TTC by 2015

Airport Rail Link

A region under pressure

Transforming transportation

in the GTHA

A 25-year integrated transportation plan **across the region**

Double transit mode share

Triple length of rapid transit

Put transit within 2 km of 75% of population

Reduce commuting times and greenhouse gas emissions

We are part of the largest transit expansion in Canadian history

Economic Benefits of The Big Move

Personal Benefits of The Big Move

Environmental Benefits of The Big Move

Funding it All

On or before June 1, 2013,

the Corporation shall provide the Minister and the heads of the councils of the municipalities in the regional transportation area with a copy of the Corporation's investment strategy, including proposals for revenue generating tools that may be used by the province or the municipalities to support the implementation of the transportation plan for the regional transportation area.

Metrolinx Act, 2006 (amended May 2009)

INVESTMENT STRATEGY

It's about **building thriving communities, a sustainable environment and a prosperous, competitive economy.**
